

PRODUCT USER SHOULD BE INTIMATED OF THE FOLLOWING :

CAUTION : Superfreeze valves are for refrigeration systems only. The instructions and related precautions must be read completely and understood before selecting, using or servicing these valves, only knowledgeable, trained refrigeration technicians should install, operate or service these valves. Stated pressure and temperature limits should not be exceeded. Bonnets should not be removed from valves unless the system has been evacuated to zero pressure. See safety precaution sheet supplied with product. Escaping refrigerant can cause injury, especially to the eyes and lungs. Also refer Product Bulletins on our website www.superfreeze.com for introduction, installation, specifications and other details on our products.

WARNING: Ammonia gas or liquid produces potentially hazardous mist that can irritate skin, eyes, nose and throat, and cause temporary or permanent respiratory injury. Permanent respiratory injury can lead to disability or death.

- *Use local ventilation and respiratory protection when installing.
See Ashrae 15 Safety Code & OSHA Standard 1910.133A.
- *Avoid breathing of and prolonged skin contact with ammonia.
- *Use goggles and a gas mask when gas is in area.
- *Maintain ammonia levels below OSHA and ACGIH levels.
- *Wash hands after handling, before eating or smoking.
- *Dispose of materials according to local, state and/or federal regulations.

Ammonia relief valves or any ammonia valve installation should only be done by trained personnel and in accordance with the ASME Boiler & Pressure Vessel Code, Section VIII.
